

## FFMIA is to ensure a financial management system:

- > Provides reliable and timely financial statements and budget reports
- > Accounts for assets reliably
- > Consistent with Federal Accounting Standards and the USSGL

## The Financial Management Requirements Team:

- > Stewards of DoD and Federal financial management systems requirements manual (DFAS 7900.4-M, The Blue Book)
- > Assists in Interpretation of the FFMIA Requirements for customers (Systems Managers and Audit Communities)
- > Provides FFMIA compliance assistance in support of Audit Readiness and self-assessments for Legacy and Target Business Systems

## SFIS and SLOA:

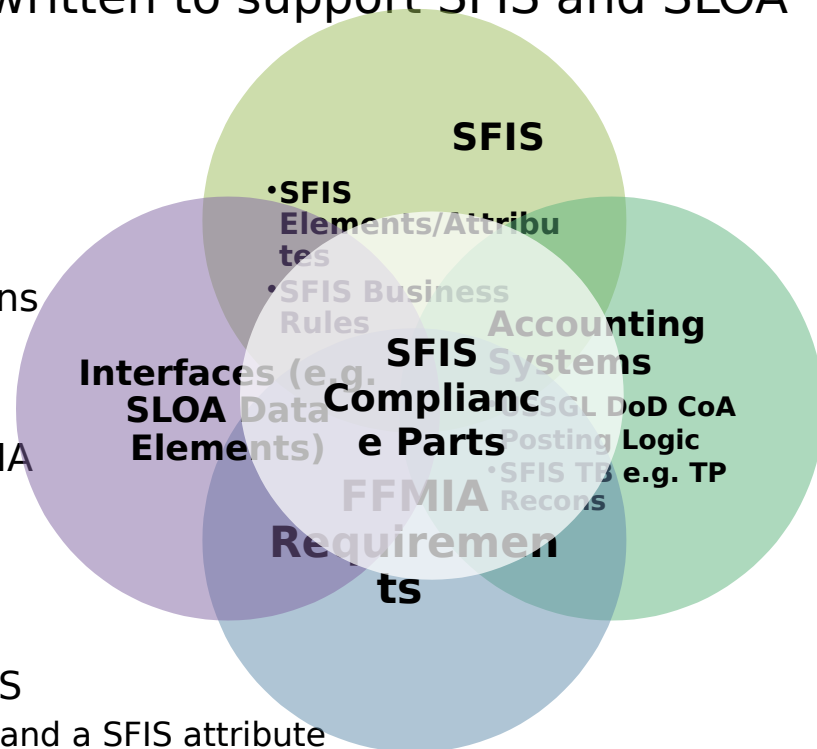

- > **SFIS Attributes** - SFIS is the DoD's common business language that enables budgeting, performance based management, and the generation of financial statements
- > **SLOA** - DoD Standard Line of Accounting (SLOA) is used to identify the funding source associated with an organization's budget and to ensure accurate accounting transactions

- ▶ SFIS compliance ultimately is determined by how compliant a system is with the SFIS business attributes
- ▶ Many of the FFMIA Requirements are written to support SFIS and SLOA

## ▶ Areas of SFIS Compliance:

- ✓ Reporting and Posting Chart of Accounts
- ✓ Posting Logic
- ✓ DDRS SFIS Trial Balance with edits/validations (e.g. Tie-Points Recons)
- ✓ Interfaces (e.g. SLOA)
- ✓ Independent third party assessment of FFMIA compliance

## ▶ SLOA Objectives:

- ✓ All SLOA data elements are attributes in SFIS
  - For Ex: An object class is a SLOA Data Element and a SFIS attribute
- ✓ SLOA will reduce 100 plus different LOA's to one standard line of accounting.
- ✓ SLOA contains data elements required for
  - Treasury and OMB Reporting (at the Appropriation Level)
  - DFAS Reporting and Reconciliation and Component Reconciliations (at the Appropriation Level)

## **SFIS/SLOA and FFMIA**

**DFAS 7900.4-M (Blue Book) FFMIA Requirements that Support  
SFIS/SLOA**

**Coordination**

### **SFIS Attributes**

- **67** Total SFIS Attributes
  - This number does include the 26 SLOA Data Elements
- **62** of the **67** SFIS Attributes have one or more FFMIA Requirement(s) that correspond

### **SLOA Data Elements**

- **26** SLOA Data Elements
- **21** of the **26** SLOA Data Elements have one or more FFMIA Requirement(s) that correspond

### **No Corresponding FFMIA Requirement**

- SLOA Data
  - Department Transfer Code
  - Reimbursable Flag Indicator
  - Functional Area Identifier
  - Agency Disbursing Identifier
  - Availability Type Code

### **SFIS Attributes SLOA Data Elements**

- 67 SFIS Attributes
- 26 SLOA Data Elements

There are 67 total SFIS attributes. Of the 67 attributes, 26 are SLOA data elements.

# SLOA Data Elements for Research

Appropriation Account Information (19)	Transactional Information (22)	Transactional Information (22) (Cont'd.)	Budget Program Information (8)
▲ Department Regular Code	USSGL/DoD Account Code	Credit Cohort Year	Budget Activity Identifier
▲ Department Transfer Code	Debit/Credit Indicator	Budgetary Impact Indicator	Budget Sub-Activity Identifier
▲ Main Account Code	Begin/End Indicator	▲ Security Cooperation Implementing Agency Code	▲ Budget Line Item Identifier
▲ Sub-Account Code	Transaction Effective Date	Product Service Code	▲ Object Class Code
Apportionment Category Code	Transaction Post Date		Contingency Code
Receipt Indicator	Transaction Amount		BEA Category Indicator Code
▲ Sub Classification Code	Exchange/Non-Exchange Indicator	Organizational Information (3)	Program Code
▲ Reimbursable Flag Indicator	Custodial/Non-Custodial Indicator	Organization Unique Identifier	▲ Sub-Allocation Holder Identifier
Fund Type Code	Currency Code	▲ Agency Disbursing Identifier Code	Cost Accounting Information (11)
Authority Type Code	Country Code	▲ Agency Accounting Identifier Code	▲ Funding Center Identifier
Availability Time Indicator	Entity/Non-Entity Indicator		▲ Cost Center Identifier
Borrowing Source Code	Covered/Uncovered Indicator		▲ Project Identifier
Program Report Code	Current/Non-Current Indicator		▲ Activity Identifier
Year of Budget Authority Indicator	▲ Business Event Type Code (BETC)	Trading Partner Information (4)	▲ Cost Element Code
▲ Beginning Period of Avail.	▲ Security Cooperation Customer Code	Federal / Non-Federal Indicator	▲ Work Order Number
▲ Ending Period of Avail.	▲ Security Cooperation Case Designator	Trading Partner Indicator Code	Transaction Quantity
▲ Availability Type Code	▲ Security Cooperation Case Line Item Identifier	Business Partner Number	Unit of Measure Code
Program Year	Prior Year Adjustment Code	Trading Partner Main Account	Asset Unique ID
Apportionment Category B Program Code			MEPR Code
			▲ Functional Area Identifier

## 5 SLOA Data Elements with no corresponding FFMIA Requirement

### Appropriation Account Information (19)

- ▲ Department Transfer Code
- ▲ Reimbursable Flag Indicator
- ▲ Availability Type Code

### Organizational Information (3)

- ▲ Agency Disbursing Identifier Code

### Cost Accounting Information (11)

- ▲ Functional Area Identifier

**Note: FFMIA Team will research authoritative sources for requirements that support the 5 SLOA Data Elements that currently have no FFMIA requirement correlation.**

## Related DFAS 7900.4-M Blue Book (BB)

### Requirements

#### SFIS/SLOA Element

##### Object Class Code

*The Office of Management and Budget (OMB) designated object classification codes must be used when posting general ledger transaction to record the effect of budgetary expenditures.*

**BB# 08.04.067** To support the Funds Control/Funds Availability Editing activity, the system must provide automated functionality to monitor the use of funds against specific object class limitations.

**BB# 14.05.011** The system must provide the capability for a user with special authorization to establish and maintain standard (OMB Circular No. A-11) object class codes and (agency-specific) object class extension codes consistent with the Common Government-wide Accounting Classification (CGAC) structure document.

#### SFIS/SLOA Element

##### Project Identifier

*If Project Identifier is used as the cost object, then each system must store and maintain Project Identifiers.*

**BB# 06.02.068** To support the managerial cost accounting process, the system shall have the capability to classify financial information by: a) Funding Center Identifier b) Cost Center Identifier c) Project Identifier d) Activity Identifier e) Work Order Number f) Cost Element Code

**BB# 06.06.033** To support the managerial cost accounting process, the system shall have an integrated capability to receive or send the following cost elements and associated information: a) Funding Center Identifier b) Cost Center Identifier c) Project Identifier d) Activity Identifier e) Work Order Number f) Cost Element Code.

#### SFIS/SLOA Element

##### Work Order Number

*A Work Order Number must be associated with one or more Fund Center Identifiers, Cost Element Codes and Program Codes.*

**BB# 09.02.126** The system shall have the ability to identify, record, and maintain deliverable line item (e.g., CLIN/SLIN/ELIN) structures, at the lowest level (e.g., 0001, 0001AA, A001) IAW DFARS 204.71.

### Agency Audit Readiness (FFMIA-SFIS/SLOA)
